TV Program Legends of Motorsport

We have had a great response to the first 3 programs and are planning to have another 2 series in the New Year. The second series will feature Rod Millen, Ginger Malloy, Garry Pederson and Paul Fahey. HRC still has advertising spots available.

Contact chris@hrcevents.co.nz 027 4827542

First Program was Tuesday 26th November at 8.30pm on Sky Channel 83

- Programme 1 - David Oxtan <https://youtu.be/wvFhI0SIwp0>
- Programme 2 - Paul Adams <https://youtu.be/fuWwxJihpR4>
- Programme 3 - Eric Mallard https://youtu.be/JbC2T-x_YhA
- Programme 4 - Graeme Crosby showing 17/12/19

Advertising Opportunities

HRC will be looking to live streaming a number of our upcoming events next season and there is the Opportunity to purchase a limited number of advertising slots for a very reasonable price. In live streaming the endurance races we have had audiences of 15,000 to 25,000 viewers. Another advantage of advertising on this medium that the video remains on the net and can be viewed on a future occasion giving further value for your advertising dollar. The price is very much less than you would pay for TV advertising.

HRC can also arrange advertising in this monthly newsletter, the HRC annual wall planner, advertising in the events programs and on Face book

EAG Formula Open Championship Series.

The new single seater series is evolving out of the North Island Formula Libre category and will feature a four round series starting in January 2020.

Formula Open will contest a four-round series for Formula Atlantic, Formula Renault, Formula Ford 2000, Formula Super Vee, Formula Suzuki and Toyota FT40 cars from the Toyota Racing Series. Leasing a Toyota FT 40 would be a good step from Formula Ford to the Toyota TRS series and then onto a formula One career

It's an extension of Formula Libre We have a lot of these cars currently in sheds and this short four round series is designed for drivers to get them out and onto the grid for some great racing."

Gary Rush is the current single seater Formula Libre champion. He will again face stiff opposition from Ken Smith James Watson and Tony Quinn. These four will be competitive with the Toyota FT 40 cars.

The recent purchase of nine FT40 Toyota Racing Series cars by Challenge Racing (Tim O'Connor) has given the series more momentum.

These FT 40 Toyota single seaters will become available for lease over the summer season including rounds of the FONZ.

For lease details and conditions please contact Tim directly. This is an incredible opportunity for drivers wanting to move up from other formula racing and will give a driver the opportunity of competing in a wings and slicks class without needing to own a car. Two cars have already been leased.

Tim's contact details are tim@acs ltd.co.nz Mobile 021 459377

John Tomlin johntomlin@xtra.co.nz 021759820

For more information, "Like" the Formula Open NZ Facebook page.

The invitation series will take place over four rounds

Formula 5000

Fastest qualifier and the driver who dominated the first round of the 2019/20 SAS Autoparts MSC NZ F5000 Tasman Cup Revival Series races at the annual The Sound MG Classic meeting at Circuit Chris Amon Manfeild over the weekend was Michael Collins (McRae GM1) from Christchurch. He is seen here out in front, and leading a warm-up lap from pole with weekend runner-up Grant Martin (Talon MR1A) alongside.

EVENT REPORT

17-11-19

CLASSY COLLINS COMPLETES OPENING NZ F5000 SERIES' ROUND CLEAN SWEEP AT MANFEILD

Classy category young gun Michael Collins (McRae GM1) completed a clean sweep of all three SAS Autoparts MSC NZ F5000 Tasman Cup Revival Series races on the second day of competition at the opening round of the 2019/20 season at the annual The Sound MG Classic historic motor racing meeting at Fielding's Circuit Chris Amon Manfeild today.

After qualifying quickest and winning the first SAS Autoparts MSC series' race of the season on Saturday, the 23-year-old from Christchurch repeated the dose today, again leading every lap he started from experienced Auckland-based historic single-seater specialist Grant Martin (Talon MR1A).

Collins wasn't holding back either, his best race lap in the final just two-hundredths of a second slower (a 1m02.94 cfm 1m02.92) than the lap that earned him pole position in qualifying on Saturday morning.

Today's two races provided a similar spectacle to Saturday's season-opener with Collins rocketing away from pole position, Grant Martin (Talon MR1A) tucking in behind and David Banks (Talon MR1), Aaron Burson (McRae GM1), Brett Willis (Lola T330), Glenn Richards (Lola T400) and the first of the locals, Kevin Ingram (Lola T332) constituting a multi-colour/multi-car battle pack for positions three-through seven.

Adding extra fire-power today was category stalwart Shayne Windelburn (Lola T400) who missed out on qualifying and the first race of the weekend on Saturday but was quickly into his stride today. In the morning race he worked his way up to sixth place, and was fourth in the final race of the day until being caught by a late charge put in by former SAS Autoparts MSC Series title holder Brett Willis to end up fifth

Willis was forced out of the second race of the weekend on Sunday morning by gear selection issues, which – fortunately – were traced to a relatively easily fixed linkage issue, the Rotorua ace putting a determined charge in, in the final to work his way forward and eventually past Windelburn to match his Saturday race finishing place of fourth.

Gear selection issues also saw third quickest qualifier Aaron Burson pull out of a race (the final). Burson had driven a strong race earlier in the day to finish third ahead of David Banks (Talon MR1), Glenn Richards and Shayne Windelburn.

In the final, however, his dnf elevated David Banks to third ahead of Willis, Windelburn and Ingram with Glenn Richards, amazingly spinning as he exited the final corner but able to gather it up and continue, to greet the chequered flag 1) without hitting anything, and 2) without losing seventh place!

Unfortunately, after a trouble-free debut behind the wheel of his father (David Banks') ex-Johnny Walker Australian Grand Prix-winning Lola T332 on Saturday, Codie Banks failed to finish the second race this morning thanks to a minor engine issue, then failed to even start the final race of the weekend when the Lola's engine stopped on the warm-up lap..

In stark contrast, after being forced out of Saturday's race after his car's gear lever worked loose Tim Rush (McLaren M22) enjoyed a trouble-free run today finishing ninth in both races.

Finally, bragging rights in the Class A category for older period cars belonged to Frank Karl (McLaren M10B) this weekend after twice leading home Tony Roberts in the high-wing McLaren M10A.

There is now a break of two months until the traditional high-season for the SAS Autoparts MSC NZ F5000 Tasman Cup Revival Series, starting with the big Historic Grand Prix meeting at Taupo's Bruce McLaren Motorsport Park over the January 18/19 weekend.

With at least four extra cars being shipped down from the UK plus several more from Australia, a 20+ field of cars looks certain.....one which possibly even includes the return of five-time SAS Autoparts MSC Series champion Ken Smith.....

Join us to hear the inspirational story of a car-mad boy who grew up in Hamilton then went to England, got a job as a cleaner at McLaren, and ended up McLaren Formula One Team Manager, winning the 1974 and 1976 World Championships with Emerson Fittipaldi and James Hunt.

Alastair Caldwell was a key figure in the glamour days of Formula 1, the 60's and 70's, alongside such greats as Kiwis Denny Hulme and Bruce McLaren and international superstars Nikki Lauda and Nelson Piquet. He was responsible for a number of technical innovations in F1 including the addition of skirts for downforce, the air starter and the six-speed gearbox. His story is one that shouldn't be missed by any motor racing fan.

Alastair Caldwell now travels to the far corners of the earth competing in car rallies in his extraordinary collection of classic cars which include a Rolls-Royce Silver Cloud, a Ferrari GTO and a Ford Model T Speedster.

He is stopping briefly in Christchurch to speak at this fundraising event in support of SCAPE Public Art, the organisation installing large scale, free-to-view public art in Christchurch city. Learn more at www.scapepublicart.org.nz

Thank you to Lindsay O'Donnell whose 1968 McLaren M4A Formula 2 car will be on display during the event.

“ Spending a day or even an hour with Alastair Caldwell, listening to his fund of stories about Formula 1 from the inside 40 or more years ago, is an unforgettable experience ” Simon Taylor - Motor Sport Magazine

MY LAPS TRANSPONDERS

My Laps Transponders can be purchased from the Historic Racing Club. Order online at www.motorsportentry.com or send a cheque to HRC Inc, PO Box 28140 Remuera.

The new X2 transponders can be charged in 4 hours instead of 12 hours

- X2 Rechargeable Transponder 1 Year \$220
- X2 Rechargeable Transponder 2 Year \$320
- X2 Direct Wired Transponder 1 Year \$270
- X2 Direct Wired Transponder 2 Year \$380

At the end of the license period to activate your transponder Price is AU\$100 for 1 year, 2 years AU\$181.50 and 5 years AU 368.50.

All My Laps Transponders are used at all New Zealand circuits.

MYLAPS provides personal transponders to fulfil the needs of organizations as well as the needs of participants. With the introduction of the Car/Bike X2 personal transponder, MYLAPS offers a low cost entry solution for racers.

Direct Power My Laps Transponders

Change in operation. With the Direct Power transponder the flash slow red when the car first starts and will turn green when the internal transponder battery is fully charged. This will be a matter of a few minutes

With the season starting soon, sales of transponders have been brisk but HRC has plenty of stock. A number of drivers have rung the office lately saying their transponders won't charge. This is because they have not renewed their subscription. This can be done on www.mylaps.com

There have been some issues with MyLaps Transponders X2 Racekeys not updating firmware. Follow this link to the fix:
